

Foundation Stage Weekly Learning Letter

Ongar Place Primary School, Addlestone, Surrey 01932 842785

Issue Number 23
23rd March 2018

Continuing the Learning Journey!!

We have had such a busy 'maths week' this week. The children have been adding, subtracting, measuring (our runner bean plants!), doubling and halving.

Here are some of the highlights...

Next week the children will be participating in many Easter activities - cooking, creating baskets and making cards as well as listening to the Easter story.

Information

Please check that your child's PE shoes still fit as some were very snug this week!

Library is an extra activity that takes place with Mrs Denyer when time permits. The children select their own books and are not expected to read all of the text. Once enjoyed at home leave the books in your child's book bag, or they can leave them in their school tray.

The children are encouraged to walk from the playground to the classroom independently and hand in letters, books etc once they are inside. Please support us by reminding your child to do this rather than coming into the cloakroom with them.

Special Star Learners

Lily – for her amazing problem solving this week!

Rudi – for careful counting and great symmetrical matching!

Information for Families

We break up for the Easter holidays next Thursday at 1.30 and return on Monday 16th April.

Have a lovely break!

Many thanks,
The Chestnut Team
