

Ongar Place Primary School Development

Last year we had eight development areas and have been working hard on these.

Development Area 1 Promoting healthy living and well-being
Development Area 2 Sharply targeting intervention and challenge for children and teachers
Development Area 3 Securing the accountability of all leaders
Development Area 4 Raising the profile of governors within the school
Development Area 5 Empowering parents to encourage and support children
Development Area 6 Developing links with outside agents to support parents and children
Development Area 7 Improving the outside area to enhance learning
Development Area 8 Ensuring the continuation of broad and balanced curriculum provision

But what do you think we should prioritise next year?

Strengths	Development Points
What do we do well? What are our strengths?	What do we not do as well? What could we improve?
What could we do more of?	What should we start doing?
Any other comments or ideas:
