

YEAR 1 WEEKLY LEARNING

Ongar Place Primary School, Addlestone, Surrey 01932 842785

24th March 2017

Just one more fun-packed week to go. We're very excited about our Tiger Tea Party next week!

Our Learning Journey

In maths this week we've been consolidating our knowledge. We know we can help ourself to any resources we feel will help us. E.g. We can use number lines for counting on and back to add or subtract, or we could use objects to share into groups for our times tables.

We've continued our Animal learning in science, and in Literacy we've been preparing our menus for the Tiger Tea Party next week. We know all about eating healthily and how to sequence a recipe! We've also recapped sound buttons and how to form letters with the correct start and lead out points...

Computing and IT have been a focus this week. We know the importance of sequencing in recipes and when giving instructions to our Bee-bots...

We've recapped our primary colours in printing, we love our new display. Some of us remembered that red + yellow = orange and blue + yellow = green!

Star learner this week is...

Matthew!

Wow - you've overcome some incredibly tricky maths challenges this week Matthew! You persevered and got there in the end!

Well done Matthew!

Reminders

Tea Party Preparation helpers:

If you are free on Thursday morning we would love to have some helpers to come in to prepare sandwiches with the children. Please let Mrs. MacCormack or Mrs French know on Monday morning!

Tea Party:

Next Thursday at 3pm we will be holding the Tiger Tea Party in Cedar classroom. We hope you've received your invites and that the person your child chose to invite can attend. Any problems or changes just let me know!

Many thanks,
Mrs MacCormack
