

YEAR 1 WEEKLY LEARNING

Ongar Place Primary School, Addlestone, Surrey 01932 842785

27th January 2016

We've had a shape-tastic week from maths all the way through to PE and Art this week! The great artist Wassily Kandinsky has inspired our learning...

Our Learning Journey

The week begun with our literacy and completing our adapted *Gruffalo* tales. Some of us now have the stamina to write more than three pages; remembering to use our phonics to sound out new words, include finger spaces and beautiful letter formation.

Our maths learning has been inspired by Percy Parker this week. We realise we can already count out loud to our 2s, 5s and 10s; and now it's time to group objects and think about how to show this in writing. We've also discussed how to estimate and use a number range.

And our favourite part of the week... we were creative every single day! On Monday, we began with some beautiful shape dancing; inspired by Kandinsky's approach of listening to music and then visualising what he heard. On Tuesday we learnt about his sculpture and paintings; spotting similarities and differences between them.

On Wednesday we experimented with different types of paper and printing. And we ended the week with a collaborative project - we'll show you this next week!

Star learner this week is...

Luca!

Luca is so eager with his maths learning he often needs reminding to take his time! This week he has practiced counting in 2s, 5s, and 10s; grabbing every counting opportunity he can find!

Well done Luca!

Reminders to Families

Home learning: Home learning is back to Friday hand-out and Monday return as of this week. Apologies for any confusion about this last week!

Please bring in: A photograph or drawing of a pet or a house animal (*in preparation for science after half-term*)

Science Days: 31st Jan and 1st Feb

Many thanks,
Mrs MacCormack
