

# YEAR 1 WEEKLY LEARNING

Ongar Place Primary School, Addlestone, Surrey 01932 842785

30<sup>th</sup> September 2016

This week we've had a fabulous time learning about how houses are built, different materials, and how to work as a team to get things done.

### Our Learning Journey

The week began with designing houses and thinking about the materials we want to build them from. We are going to build model versions of these soon and are very excited!

Our numeracy has amazed Mrs MacCormac: Most of us can count backwards, match objects to numbers, and some of us are already beginning to understand our tens and ones...

In computing we've spent time thinking about the importance of following instructions in sequence, and considered all the important things in life that instructions can help us with: car maintenance, building things, and playing games of course...

Friday was International Day of Languages. We spent the day learning about France: we tasted their local cuisine, learnt some French vocabulary, and played some traditional French games!

We've spent time working as teams this week in P.E. We have got to know the equipment we use and used our problem solving skills to turn the equipment into cats! We then got more active and showed Mrs MacCormack what amazing cats we can be!

### Star learner this week is...

**Susan**

Susan has been a great team player this week. She has shown how to treat her friends fairly whilst still sharing her own ideas.

**Well done Susan!**

### Reminders to Families

**Recycling:** This week Cedar class will be your recycling plant! We are planning our buildings and hoping to make them, so any donations you have in the form of boxes, bottles, etc. are welcome!

We will be going on a learning walk (in the local area) on the afternoon of Wednesday 5<sup>th</sup> October. If you are interested in helping out please let me know.

*Many thanks,  
Mrs MacCormack*
