

YEAR 2

Curriculum Overview

2019 Spring

Reminders:

We continue to teach the children how to organise themselves independently. This means that they should be responsible for checking that their books are in the box for changing if necessary and that any letters for the office go in the 'office box'.

Children should be reading their 'home' reading books every evening for about 10-15 minutes every day.

Home Learning will support learning and will be sent home every Friday to be returned the following Wednesday. Please support your child but encourage them to be as independent as possible as it is important that we know what your child can and cannot do so we can provide them with the necessary support or challenge.

The children will have PE on Wednesdays and Thursdays, please make sure your child has a full, named PE kit in school. Children need to arrive without earrings or be able to take them out and replace them on their own on these days.

This Terms Theme: Frozen

English:

This term we will be looking at explanation texts, different books by the same author, poetry and information texts.

Within these topics we will still be working on writing complete sentences with capital letters and full stops. We will be thinking about using exciting sentence openers, and using compound sentences to improve the quality of our writing.

We will be working on locating different word types in a text such as a noun, verb and adverb.

We will also be focusing on reading comprehension and looking carefully at what we're reading and answering questions about the texts.

This Year's Values: Respect, Passion, Honesty, Teamwork, Self-Belief and Determination

Science:

Children will learn that most living things live in habitats to which they are suited and children will be expected to describe how different habitats provide for the basic needs of different kinds of animals and plants.

Children will also learn how animals obtain their food from plants and other animals, using the idea of a simple food chain.

We will be planning and carrying out investigations to explore factors that may affect the rate of melting.

Maths:

- Number - Revise number bonds to 10 and 20 and understand how these will help us solve numerous different types of math problems
- Time – learn to tell the time to the nearest quarter on both an analogue and a digital clock
- Understand the relationship between seconds, minutes and hours.
- Shape – sort 2D and 3D shapes according to properties such as faces and vertices
- Times tables – learn and revise 2, 5 and 10 times table. Begin to understand that division is the inverse of multiplication.
- Money – recognise and name all coins and use them to make specific amounts.
- Fractions – learn and recognise $\frac{1}{2}$ s, $\frac{1}{4}$ s, $\frac{1}{3}$ s and $\frac{2}{3}$ s of shapes; place $\frac{1}{2}$ s on a number line; count in $\frac{1}{2}$ s and $\frac{1}{4}$ s.

YEAR 2

Curriculum Overview

2019 Spring

Page 2

History

Explore the lives of significant individuals in the past who have contributed to national and international achievements.
Know where the people and events they study fit within a chronological framework and identify similarities and differences between ways of life in different periods.

Children will explore the life of the famous explorers Robert Falcon Scott and Roald Amundsen.

Design & Technology

Select from and use a range of tools and equipment to perform practical tasks
Design purposeful, functional, appealing products for themselves and other users based on design criteria
Evaluate their ideas and products against design criteria

Children will research simple levers and mechanisms before designing and making an Easter card with a moving element.

Geography

Understand geographical similarities and differences through studying the human and physical geography of a small area of the United Kingdom, and of a small area in a contrasting non-European country
Identify seasonal and daily weather patterns in the United Kingdom and the location of hot and cold areas of the world in relation to the Equator and the North and South Poles

Children will be exploring the regions of Oslo and Trondheim in Norway. We will locate the area and compare the weather and features to the in the UK.

Children will compare frozen and non-frozen landscapes and learn about the effects of very cold weather on themselves and their surroundings.

PE

Perform dances using simple movement patterns.
Master basic movements and develop balance, agility and co-ordination

Children will take part in multi-skills sessions to develop skills used across several games and sports. Children will be following simple dance routines and also creating their own routines.

Music

Use voices expressively and creatively by singing songs and speaking chants and rhymes.
Experiment with, create, select and combine sounds using the interrelated dimensions of music.

Children will work with a professional opera singer and follow the Primary Robins programme. They will also explore classical music by learning about the BBC Ten Pieces.

Art & Design

Develop a wide range of art and design techniques in using colour, pattern, texture, line, shape, form and space
Use drawing, painting and sculpture to develop and share their ideas, experiences and imagination

Children will be using their skills to create colourful Arctic landscapes and explore the Aurora Borealis Northern Lights, as well as Inuit paintings and prints.

Computing

Use technology purposefully to create, organise, store, manipulate and retrieve digital content.
Recognise common uses of technology beyond school.
Use technology safely, keeping personal information private.

Children will explore how technology is used to create different effects in films. They will plan and create their own stop animation film sequences using small world settings
Children will learn about how to play safely on the internet.

RE

Why is 'church' important to Christians?
Why do Christians call Jesus 'Saviour'?
Why is Easter important to Christians?

Children will explore the internal and external features of a church. They will learn about the different symbols in a church and what happens there. They will gain an understanding about why the church is an important place for Christians.
Children will learn about the Easter story and will learn about why it is such an important event for Christians.
