

Year Two Learning Letter

Ongar Place Primary School, Addlestone, Surrey 01932 842785

3rd November 2017

Learning Journey

This week in Maths we have been measuring length. We began by measuring ourselves using decimetres before moving on to measure smaller objects in centimetres. We have also been learning to solve word problems involving length.

In English, we read the story 'The Shopping Basket'. We acted the story out in groups and tried to recall the parts of the story in the correct order. We used the story to help us write lists and instructions.

In DT we have looked at Superhero badges and used these as inspiration for designing badges for our own superheroes.

Focus on Values

This half term our value is **Trust**. In class we have been thinking about the different people we trust.

Star Learners

Our Star Learners this week are James and Eric for carefully using a ruler to measure accurately in centimetres.

Next week we will be using different scales to investigate mass in maths. In English we are going to be writing instructions, using time connectives to help us sequence our work.

In DT we are going to make the badges we have designed for our superheroes using binca fabric.

Information for Families

Monday 6th November - Family Learning morning

Thursday 9th November - Individual photographs

As the weather gets colder, please make sure your child has a coat in school every day for playtimes.
