

Year Two Learning Letter

Ongar Place Primary School, Addlestone, Surrey 01932 842785

9th February 2018

Learning Journey

This week we used our 'Frozen' small worlds to create our own stop animations. After planning our story, we took a series of photographs on iPads. We then used the iMovie program to play them in order, creating our own animations. Our teachers were especially pleased with the way we worked together and helped each other to solve problems.

In Maths we have been drawing number lines to help us add numbers which bridge across tens. We found that using our knowledge of number bonds to jump to the next multiple of ten made this much easier.

In Art we learned about the Aurora Borealis and used chalks and paper templates to create our own Northern Light designs on a black background.

Star Learners

Sophia showed great perseverance this week in Maths. Even though it was tricky to use the number lines, she kept trying until she understood.

We are very sad to say goodbye to Mrs Reed for half a term as she goes to another school to experience life in year 4. We will miss her a lot but wish her lots of luck with her new class. Mrs Reed will be back with us after Easter.

Information for Families

We will be holding a Family Learning Reading workshop based on the story 'Hairy Maclary' for some Year 2 children and their parents on Thursday 15th March. For more information and to sign up, please speak to one of the adults in class.

We look forward to seeing you at Parents evening on Tuesday 20th February or Thursday 22nd February.

Have a great half term break.
