

Year Two Learning Letter

Ongar Place Primary School, Addlestone, Surrey 01932 842785

10th November 2017

Learning Journey

This week in English we read the story 'Superkid'. We created our own super heroes and wrote about how they change from normal children to their alter egos. We tried hard to use different time connectives and bossy verbs in our writing to show the correct order.

In Maths we have been measuring mass using grams and kilograms. We are very good at using mathematical language to compare the weight of different objects and have been trying hard to read scales.

In DT this week we investigated designs for superhero badges and used these to inspire our own designs. We have learnt how to use a running stitch and begun to make our own badges. Sewing takes a lot of concentration but we are very happy with our creations.

Star Learner

Our Star Learner this week is Justin. He worked hard to describe his superhero in detail.

Next week we will be continuing to use instructions to help us create healthy pizzas for our superheroes.

In Maths we will be learning about data handling. We will be making our own graphs and using graphs to help us find information and answer questions.

Information for Families

It was wonderful to welcome so many parents into class on Monday. The children loved working with you and we hope you found it useful too.

Children will be bringing home their Christmas card designs today. If you wish to order any cards or labels, please return the completed form by Thursday 16th November.
