

# Year Two Learning Letter

Ongar Place Primary School, Addlestone, Surrey 01932 842785

12<sup>th</sup> May 2017

## Learning Journey

We had so much fun in science this week learning about what plants need to grow. We discussed the advantages of growing food in water instead of soil and set up an investigation to grow beans hydroponically.

We are keeping a diary to observe the changes to our bean seeds over the next few weeks. We can't wait to see what happens.

In maths we have been revising methods for solving addition and subtraction calculations. We have practised drawing our own number lines and then jumping in 10s and 1s either forwards or backwards to find the answers to questions.

We are really enjoying our learning about the Great Fire of London. We have been finding out all about it from different sources and are preparing to write chronological reports.

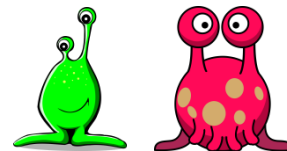

## Star Learners

Well done Issy and Nick for writing super quest stories in English. You used your imaginations to write about the journey your characters went on and obstacles they faced.

## Next Week

In English we will be reading the poem 'Aliens Stole My Underpants' to start our learning about humorous poems.

We will be making observations of our bean seeds in Science.

## Information for Families

There have been quite a few children without PE this week and last. Please ensure children have their kit, including trainers or plimsolls that fit, in school on a Monday.
