18th January 2019

Learning Journey

We have had another busy and exciting week in Rowan class with lots of excellent learning taking place.

In English we have been comparing characters and settings in a range of fantasy stories. We have also been trying hard to use noun phrases to describe some of our own settings.

We are really enjoying our 'Frozen' topic and in Science we have continued to learn about some of the animals that live in the Polar Regions. This week we found out how some animals have special adaptations that help them to survive in the Arctic.

In our Art lesson this week we discussed the effect different colours had on us. We talked about which colours made us happy or calm or energetic. We explored the different colours we might see in an Arctic landscape and used paint and shaving foam to recreate some of the colours and patterns found in the Arctic.

Star Learners

Well done to Sofia and Bunty for some excellent learning in PE this week.

Sofia invented a great game using just 4 pieces of equipment.

Bunty joined in all of the throwing and catching activities and managed to balance on one leg for 2 minutes in our 'personal best' challenge!

Next week we will be reading and writing recounts in English.

In Maths we will be exploring the properties of 2D shapes.

We will use our painted patterns to create calm Arctic landscapes by adding the shapes and lines we observe.

We will also begin making our 'Frozen' small worlds.

Information for Families

We are going to be making some 'Frozen' themed small worlds over the next two weeks. If you have any spare shoeboxes at home, these would be very useful for us.
