

# Year Two Learning Letter

Ongar Place Primary School, Addlestone, Surrey 01932 842785

19<sup>th</sup> January 2018

## Learning Journey

We had so much fun during our science days!! We linked our science to our Frozen learning and carried out an investigation to see how we could melt Elsa's frozen hands. We made predictions before we started. Some of us thought that sawdust would melt Elsa's hands quickly because if it keeps rabbits and guinea pigs warm then it will warm her hands. Others disagreed and thought that salt would be good because we put salt on the paths when it is cold so it must be good for melting ice. Fab ideas year 2!

## Star Learners

Well done to Evie, Eric and Leo for using some fantastic reasoning when predicting what might happen to Elsa's frozen hands.

Next week we will be reading and writing recounts in English.

In Maths we will be exploring the properties of 2D shapes.

We will also begin making our 'Frozen' small worlds.

## Information for Families

We said goodbye to Mrs Cheney this week as she is now on her maternity leave. We can't wait to meet her new baby.
