

Year Two Learning Letter

Ongar Place Primary School, Addlestone, Surrey 01932 842785

19th October 2018

Learning Journey

This week in English we have been exploring the different types of sentences - statements, commands, exclamations and questions.

In Maths we have been practising adding and subtracting 10 to any 2-digit number. We have looked for patterns in the answers and used number lines to help us.

In RE we learnt the story of Jonah and the Whale. We had great fun acting out the story and writing postcards that Jonah might have sent from Ninevah. We also thought about how the messages in the story help Christians to live their lives.

In Science this week we learned about how important exercise is for a healthy heart. We compared our heartrates before exercise and after exercise.

Star Learner

Harvey has been joining in our Primary Robins sessions with great enthusiasm and energy.

Well done!

After half term we will be learning about World War One in our topic work.

We will be thinking about different materials and their properties. We will consider why different materials are more suited to different things.

In our Computing lessons, we will learn about how we can use technology to communicate with other people.

Information for Families

Monday 29th October - Back to school

Tuesday 30th October - Individual photographs

Thank you for your continued support this term.
Have a lovely half term holiday!
