

Year Two Learning Letter

Ongar Place Primary School, Addlestone, Surrey 01932 842785

19th April 2018

Learning Journey

How lovely to come back to school with such beautiful weather. We were all very excited to have our first swimming lesson of the summer on Wednesday - a great way to cool down.

In English we have started learning about quest stories. We read 'Lost and Found' by Oliver Jeffers and sequenced the events in the story. We also used the story to help us learn about the past and present tense.

Our Maths learning has been quite challenging this week as we have been learning to tell the time to quarter of an hour on analogue and digital clocks. We will keep practising!

We met our new singing teacher, Luke this week. He is teaching us to sing 'Castle on a Cloud' from the show Les Miserables.

Information for Families

During the warm weather, please make sure children have a water bottle with them in school.

Star Learners

Well done Susan for practising your joined up writing so carefully this week. You showed great perseverance.

Next Week

In Science we will be looking at a range of different types of seeds and what they might become. We will design our own seeds.

We will be learning how to tell the time to 5 minutes and solving problems relating to time.

Focus on Values

Our new value is **Courage**. In class we talked about what it means to have courage and the things that help us to be courageous. We read the story 'The making of Milton' and thought about what we would put in our own 'jars of courage'.
