

Year Two Learning Letter

Ongar Place Primary School, Addlestone, Surrey 01932 842785

23rd June 2017

Learning Journey

Children have had an extremely busy week in very hot temperatures but they managed to successfully complete the sponsored bounce and enjoyed a fun sports day.

In English this week, we have really enjoyed looking at different shape poems and writing our own. We have produced a book of all the poems to keep in our book corner for all to see. We are also producing a book with all our list poems. We have enjoyed experimenting with charcoal in art and we have been applying our mastery skills in maths to find out missing numbers in multiplication and division calculations. In computers, we have created several codes to make our helicopters fly and we have even managed to get a witch to cast a spell!

Star Learners

Well done to all of year 2 children for competing in our sports day.

Next Week

Next week in maths we are focussing on fractions. We will be doing storytelling in English and using different objects as inspiration. Role play is also a great opportunity to support children in thinking imaginatively.

We are going to experiment a little more with tone in our artwork and use charcoal again as a suitable medium.

Information for Families

Don't forget our PTFA Summer Fair on the 1st July 2017 - it will be wonderful to see you there.
