

Year Two Learning Letter

Ongar Place Primary School, Addlestone, Surrey 01932 842785

27th January 2017

Learning Journey

In maths we have been busy learning all about 2D shapes; naming shapes, listing properties, sorting shapes and drawing with shapes! We enjoyed using venn and carroll diagrams and designing floor patterns, although we had to be careful not to leave gaps or we might fall through the floor!

We have been reading 'Diary of a Wombat' in English. We used the story to practise writing long sentences that include conjunctions.

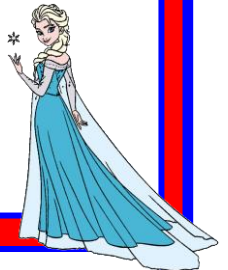

In our topic learning we sketched arctic landscapes. We tried to use our pencils to create the light and dark areas of the picture.

Star Learners

Well done Jake, your English learning was fantastic this week! You chose conjunctions to make 2 small sentences longer.

We can't wait to do lots of science during our science days next week. We will be carrying out an investigation to see how we could stop Elsa's frozen hands from melting.

Information for Families

Thank you for all the shoe boxes we now have, keep them coming!
