

Year Two Learning Letter

Ongar Place Primary School, Addlestone, Surrey 01932 842785

28th April 2017

Learning Journey

We have come back to school from the Easter break very excited to start our learning about the Great Fire of London.

We have been learning when the fire started and made our own timeline of what happened on each day that it burned.

In English we have started learning about quest stories. We have been reading books by Oliver Jeffers and writing story maps.

We also used the stories to help us learn about the past and present tense.

Members of the KS1 choir have been busy making their masks for their performance on Friday. They have used paints and sequins to make them look so amazing. We cannot wait to share our song with the other schools.

Our maths learning has been quite challenging this week as we have been learning to tell the time to five minutes on analogue and digital clocks. We will keep practising!

Star Learners

Well done Reuben and Krishal!
You wrote detailed, extended sentences in your prediction of what would happen next in our story in English.

Next Week

In Science we will be looking at seed dispersal and we will design our own seeds.

We will be revising how to solve calculations in maths.

Information for Families

There have been quite a few children without PE this week and last. Please ensure children have their kit, including trainers or plimsolls that fit, in school on a Monday.
