

# YEAR 3 WEEKLY LEARNING

Ongar Place Primary School, Addlestone, Surrey 01932 842785

Issue Number 15  
1<sup>st</sup> February 2019

## Our Learning Journey

We have all had a good week and thoroughly enjoyed making cheese and potato bake. We had to peel, cut, grate, mash, mix and bake. Peeling a potato was quite tricky but mashing and grating was much easier!! Most of us enjoyed eating the bake but some of us thought it was too cheesy!!

We have become more confident in using expanded addition and now know that recording the numbers in the correct column is important for accurate answers.

## Focus on Learning

Next week we will be using the nursery rhyme "Humpty Dumpty" to analyse actions and view points to record a newspaper article. We will also be continuing with our play focus.

We will continue using counting on to support subtraction and apply this to giving change. We will be completing a maths assessment too.

We will complete our cave painting and sign it with our hand print.

## Star Learners

Well done to Poppy for having a more confident approach to place value.

Well done to Lucas W for his enthusiasm towards spelling.

## Reminders to Families

To support our science learning, the children need a named large bottle with a lid with a sample of soil in them.

Please can all children bring their reading books and records every day. They are checked every morning.

**Thank you.**
