

# YEAR 3 WEEKLY LEARNING

Ongar Place Primary School, Addlestone, Surrey 01932 842785

Issue Number 12  
1<sup>st</sup> December 2017

## Our Learning Journey

We have been developing our drawing skills by sketching and colouring views from Florida. We have been thinking about the size and position of objects and are pleased with our results.

We have begun to group numbers and know that this is called division. We are realising that the links between numbers can help us to determine inverse relationships.

We have cut out our patterns for our Christmas decorations. We have now begun to sew the different elements but are finding it tricky to keep the thread and needle together!

We have thought about Christmas and have thought about presents for babies and now realise that the gifts given to Jesus were for later in his life.

Well done to Oliver, Nic and Harvey for taking part in the Rock Steady Concert. They were all very confident playing their guitars.

## Focus on Learning

### Next week:

**We will be having assessments for reading and maths.**

**We are looking forward to seeing the KS1 Nativity dress rehearsal.**

**We will consider why Jesus came, as a gift, to earth.**

**We will continue to sew our Christmas decoration.**

**We will be rehearsing our songs for the KS2 Carol Concert.**

## Star Learner-

**Well done to Findlay and Reuben who used size and position to produce a detailed drawing.**

## Reminders to Families

This half term, the children will take part in Rugby. They will need an outdoor PE kit with trainers. A hat, spare socks, fleece and joggers will help to keep us warm. A plastic carrier bag for muddy trainers would be very useful too.

To support our science learning, please could your child bring in a small sample of soil in a 2l bottle.

**Thank You**
