

YEAR 3 WEEKLY LEARNING

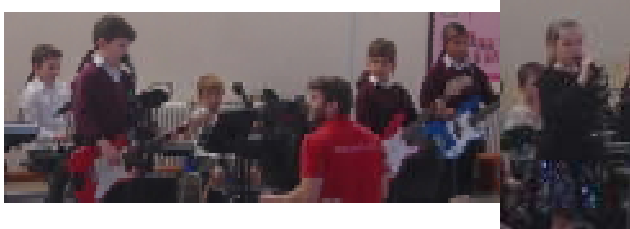

Ongar Place Primary School, Addlestone, Surrey 01932 842785

Issue Number 24
5th April 2019

Our Learning Journey

We were all impressed with the Rock Steady concert. The children played well and both Drew and Millie sang with confidence. Well Done to them all.

We enjoyed learning about shape and have understood the terms vertices and edges. We created 3D shapes using 2D shapes and investigated nets for different 3D shapes. We took apart our boxes to discover how they are made too.

We had a problem to solve with moving an egg safely and worked in small teams to create a solution.

Here are some examples of our Landscape Paintings.

Focus on Learning

After half term we will be continuing to create our own booklet using features of Non Fiction Text and begin a focus on performance poetry.

We will continue to focus on shape by identifying angles and using the vocabulary of parallel and perpendicular.

Star Learners

Well Done to all the children who represented Year 3 in a Dance Festival.

Reminders to Families

We wish everyone a very Happy Easter.

Please bring your food diaries and facts for your booklet in on Tuesday 23rd April.

Thank you.
