

YEAR 3 WEEKLY LEARNING

Ongar Place Primary School, Addlestone, Surrey 01932 842785

Issue Number 17
8th February 2019

Our Learning Journey

We have all had another good week and have completed our cave paintings and they are now being displayed in our classroom.

We have used our understanding of perspective to draw an avenue of trees and are very happy with our sketches.

We enjoyed analysing the Humpty Dumpty rhyme and were able to give lots of reasons for why he was on the wall and why he fell. Our ideas ranged from being blown over by a strong wind to an escaped prisoner to a robber who was going to steal the king's crown. We have used our ideas to write a report.

We have been learning how to calculate change and some of us used Monopoly to support this. Other children will have this experience in the coming weeks.

Focus on Learning

Next week we will be using an article, "My Granny is a Robber," to record our understanding of newspaper reports. We will label the features we have used.

We will be using multiplication and being introduced to the grid method for supporting calculations.

We will be using coding to instruct sprites to move on a screen by choosing a selection of blocks.

Star Learners

Well Done to Leo and Tia who sketched an avenue of trees using perspective, to make sure the trees were getting smaller.

Reminders to Families

Home Learning will be coming home on Friday evening and should be returned to school by the following Tuesday.

Please can all children bring their reading books and records every day. They are checked every morning.

Thank you.
