

YEAR 3 WEEKLY LEARNING

Ongar Place Primary School, Addlestone, Surrey 01932 842785

Issue Number 20
9th March 2018

Our Learning Journey:

We have enjoyed using stick figures to help us with drawing a body. We have included the different joints and fleshed the limbs out. We have been able to show a figure throwing a spear as well as a figure reclining on the floor.

We have been using unit and non unit fractions with small numbers and are realising that knowing our tables would help with accuracy. Please help us with our table knowledge at home.

We have been learning to email to each other and found that accurate user names and passwords were really important. We were excited that we received replies to our question!!

Reuben is using email to send a message to a friend.

We enjoyed playing in the snow!!

Next Week

In Maths, we will focus on equivalent fractions and adding fractions of the same denominator to make a whole.

In RE we will begin to think about the importance of Easter.

We will rehearse our production of Jack and the Beanstalk.

We will be identifying key vocabulary for an animal and start to sort out different sections for a non-fiction booklet.

Star Learner-

Well Done to Lauren who has been working hard on her fraction knowledge. She has also used stick figure bodies in different positions using proportion.

Reminders to Families

Please remember to bring in your costume to school. If there are any problems, please let us know as soon as possible.

Please remember to send back the slip giving permission for your child to have face paints.

Thank You
