

# YEAR 3 WEEKLY LEARNING

Ongar Place Primary School, Addlestone, Surrey 01932 842785

Issue Number 12  
9<sup>th</sup> December 2016

## Our Learning Journey

Beech Class have been learning about fossils. We know that dinosaur bones have been found in sedimentary rock and have been explaining this process. We used play-doh to make sedimentary rock and used a shell to create the shape and view the pattern left. We know that the dinosaurs died out millions of years before people lived.

Our Art Home learning is now displayed in the cloakroom and we hope you like these pictures. Well Done to everyone.

Our Cave is almost finished and we are pleased with the way it looks – we know we will remember this project.

## Focus on Learning

We are looking forward to the pantomime!

In Maths we will be working on the measurement of length: vocabulary, units of measure and their relationship.

We will consider why we give presents at Christmas.

We will use the zoom tool in Colour Magic.

## Star Learner

Well Done to Poppy who has been an enthusiastic learner. She has taken care in painting her sea scape and the waves are very detailed. She has created a poem giving an example of onomatopoeia and taken care with her final copy.

## Reminders to Families

We hope to see you at St Pauls Church - and are excited about our first Carol Service.

Please remember to make sure an outdoor PE kit is in school.

All children need to bring in their reading books and records everyday. They are checked every morning. When you read with your child, please sign their book.
