

# YEAR 3 WEEKLY LEARNING

Ongar Place Primary School, Addlestone, Surrey 01932 842785

Issue Number 27  
12<sup>th</sup> May 2017

## Our Learning Journey

This week we have completed a coding programme and can use instructions to move objects.

We have begun to cut out our glove patterns and create the paper elements for our string puppets.

We enjoyed using torches to investigate which materials block light and have been introduced to the vocabulary: opaque, transparent and translucent.

## Focus on Learning

### Next week:

We will be creating our own mythical creature and hero.

We will be consolidating properties of shape and identifying parallel and perpendicular lines.

We will be learning about the sun as a source of light and investigating how shadows lengthen. (Fingers crossed that we have a sunny day.)

## Star Learner

Well done to Thomas who has been focussed on his tasks always doing his best. He is more confident in answering comprehension questions.

A special mention must go to Jess B who has amazed everyone with her presentation of learning.

## Reminders to Families

Please continue to encourage your child to place their reading book and reading record into the box as they are checked every day.

Thank you to Camran for sharing his lantern. He was celebrating a very special day called "Vesak Day" in Buddhism
