

YEAR 3 WEEKLY LEARNING

Ongar Place Primary School, Addlestone, Surrey 01932 842785

Issue Number 15
13th January 2017

Our Learning Journey

We have all enjoyed thinking about football matches and we loved pretending to be the crowd so we can get a feel of how matches are reported. It also helped us with our understanding of time connectives.

We have worked hard to use partitioning for addition and understand that it is needed for vertical addition. We are becoming very familiar with expanded addition and have explained the process in words.

$$\begin{array}{r} 500 \quad 60 \quad 4 \\ 200 \quad 40 \quad 9 \end{array}$$

We can retell the story of Moses and know that he took the Israelites out of Egypt. We know that he was given the Ten Commandments from God and that these are very important in the Jewish Religion. We have thought about rules that would help our lives be better and were surprised at how they matched the commandments.

Charlie investigating the strength of a magnet using paper clips.

Focus on Learning

Next week:

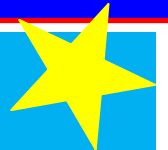

We will read and create headlines and begin to learn how to write a newspaper article.

We will be using counting on to answer subtraction calculations.

We will be reinforcing our Magnet learning by having a short quiz.

We will demonstrate our knowledge of seasonal change through art.

Star Learner

Well Done to Theo who has worked hard in all his lessons. He is writing well and is able to include detail. His understanding of expanded addition in adding 3 digit numbers is consistently accurate.

Reminders to Families

All children need to bring in their reading books and records everyday. They are checked every morning. When you read with your child, please sign their book.

Thank you to all the children who submitted a drawing to the School Council competition. Jess B and Reece would like to say thank you too.
