

YEAR 3 WEEKLY LEARNING

Ongar Place Primary School, Addlestone, Surrey 01932 842785

Issue Number 27
18th May 2018

Our Learning Journey:

We have really enjoyed learning about quests and we have come up with some of our own gruesome mythical beasts for our hero to meet on their journey.

We have continued to learn about angles and have used capital letters to identify angles and now realise that when 2 straight edges are joined at the corner an angle will be seen. This has helped us with recognising features of both 2D and 3D shapes.

We enjoyed using torches to make shadows and are more confident in explaining how they are formed.

Oliver and Lenny-Dean are cutting out their pattern in felt for their glove puppet. Next step; to sew the decoration for our chosen character.

Kamran, James and Jake are adding water colours to their sketches based on Lowry Figures.

Next Week:

In Maths we will be having assessments.

We will begin to write our own myth using our planner to ensure sequence and action is included.

We are looking forward to our trip to Butser Ancient Farm.

We will investigate shadows from the sun and hope we have a sunny day.

Star Learner-

Well Done to Reuben who has shown attention to detail in recording the events of Pentecost and used his skill of non fiction features to write an account of Celtic life.

Reminders to Families

Please make sure that your child's reading record is in school. They are checked in every day.

Beech Class would like to thank Mrs Rose for supporting us with swimming every week. If you can help with swimming support, we would all really appreciate it.

Thank you.
