

YEAR 3 WEEKLY LEARNING

Ongar Place Primary School, Addlestone, Surrey 01932 842785

Issue Number 31
23rd June 2017

Our Learning Journey

Last week we investigated where we get our energy from and were surprised to discover that healthy foods such as vegetables and fruit do not give us a lot of energy and that unhealthy foods such as chocolate, butter and jam give us lots of energy!! We also discovered that swimming is an activity that uses more energy than playing football!

We thoroughly enjoyed the sponsored bounce and were very pleased at the number we could do in 2 minutes!

We would like to thank you Mrs Brewer for all your help in supporting this event.

Our myths are now complete and we will copy them to put into a class book of myths which we can read in reading time.

We learned about Boudicca using a song to help us to understand her relationship with the Romans.

Focus on Learning

Next week:

We will continue to use the poetry of Michael Rosen to support our own poetry recording.

We will be learning about different avatars within the Hindu Religion.

We will be finding out what Romans did when they visited public baths.

Measuring perimeter and using Roman Numerals will be our focus in Maths.

Star Learner

Well done to Poppy and Rosie for creating a myth that included creative vocabulary and speech. They both understood how to engage the reader. Well done to Callum for creating a glove puppet that showed great care in stitching.

Reminders to Families

Please continue to encourage your child to place their reading book and reading record into the box as they are checked every day.

Please bring in any sponsored bounce donations to the office.

Thank you
