

YEAR 3 WEEKLY LEARNING

Ongar Place Primary School, Addlestone, Surrey 01932 842785

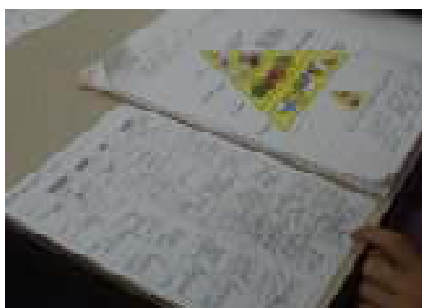

Issue Number 25
26th April 2019

Our Learning Journey

We have continued our DT focus. We have been learning to score and strengthen card by laminating, ribbing and corrugating card. We have designed the net with tabs, for our box and decided upon the method for stiffening card. We have tried to be as accurate as we can. Some of us decided to opt for cubes and some of us opted for tetrahedrons. We are going to decorate them.

We have used a food pyramid to table our food diary results. We were pleased that we had eaten from all the food groups.

Focus on Learning

Next week we will be continuing our poetry focus based on the poems of Michael Rosen.

We will continue to reinforce our shape vocabulary of parallel, perpendicular and diagonal as well as recognising different turns.

We will begin a printing art theme.

Star Learners

Well Done to Cooper and Sophia who have presented factual learning with care.

Well done to Tia who designed and created her shell structure attention to detail.

Reminders to Families

Please bring in your reading record as they are checked every day.

Thank you to all the children who brought their home learning back - we used our food diaries in Science this week.

Thank you.
