

YEAR 3 WEEKLY LEARNING

Ongar Place Primary School, Addlestone, Surrey O1932 842785

Issue Number 15
25th January 2019

Our Learning Journey

We all had a great time joining in with cheering and booing and reflecting on why different fans feel very differently when watching the same event. We have used this and our prompt words to record an account of a football match.

Learning about the Stone Age has been fun and we have created our own carvings of "animals." We have also been excited about cave paintings and what they tell us about the earliest people and are looking forward to creating our own "cave painting."

We have been using place value for calculations and have used vertical addition using the expanded method.

Next week, we will be making cheese and potato bake using potato, cheese and milk. If there are any issues or questions, please let the school office know. Thank you.

Focus on Learning

Next week we will be using a video clip of the croquet match in Alice in Wonderland to write an account and will be identifying features in newspapers. We will also write our own play scripts based on a traditional tale.

We will continue using place value for addition and begin to reinforce subtraction by using counting on. We are also looking at equivalent fractions in maths.

Star Learner

Well Done to Charlotte for displaying excellent brush skills in art.

Reminders to Families

To support our science learning, the children need a named large bottle with a lid with a sample of soil in them.

Please can all children bring their reading books and records every day. They are checked every morning.

Thank you.
