

YEAR 3 WEEKLY LEARNING

Ongar Place Primary School, Addlestone, Surrey 01932 842785

Issue Number 17
26th January 2018

Our Learning Journey.

We enjoyed our Science days last week. We have begun to understand food groups and how we need to eat a balanced meal to maintain our health. On Friday, we investigated the strength of bridges made from card, using marbles as weights. We had ideas to strengthen the bridge and came up with folding the edges which allowed many more marbles to be supported.

In groups of 6, we have begun to peel and chop a potato, boil and mash it, grate cheese and mix with the mash to make cheese and potato pie. We will continue this next week to make sure everyone has this experience.

Next Week

We are going to use Humpy Dumpty as a feature for a newspaper report.

In Maths, we will continue with multiplication using arrays and the grid method to answer calculations.

We will describe ourselves as a learner and think about our strengths.

We will be learning about the festival of Sukkot in Judaism.

We will start to use a classroom environment to post information.

Star Learners-

Well Done to Lenny –Dean and Maisie who have both used number lines to calculate change accurately. Well Done to Harrison who has used an app to demonstrate key words associated with football.

Reminders to Families

Please make sure that all children have their outdoor PE Kit, including extra socks and a hat at school. Please enclose a bag just in case their trainers get wet and dirty. There were 4 children who did not have their full outdoor PE kit in school this week.

Thank You
