

# YEAR 4 WEEKLY LEARNING

Ongar Place Primary School, Addlestone, Surrey O1932 842785

7th June 2019

## Our Learning Journey

In maths this week we have been investigating shape. We sorted shapes into Carroll diagrams, regular and irregular shapes and quadrilateral and not quadrilateral.

We have worked really hard embroidering leaves for our 50 years of Ongar tree. Look out for the finished tree!

## For your information

We are going to focus on geometry in maths next week as we look at coordinates.

We continue to explore the weather in geography, thinking about the flora and fauna of different biomes.

**Star Learners**

Lilly-Rose, for working so hard on her embroidery.

Well done.

## Information for Families

Enjoy the weekend.

Mrs Meade and Mrs Cheney
