

# YEAR 4 WEEKLY LEARNING

Ongar Place Primary School, Addlestone, Surrey 01932 842785

2<sup>nd</sup> February 2018

## Our Learning Journey

This week we have focused on fractions in maths. We made our own fraction walls to help us to understand equivalent fractions.

We used our map skills in theme, finding out where the ancient Maya civilisation used to live and drawing maps of the area.

## Focus on Learning

We are looking forward to next week when we will spend a morning honing our skills in the kitchen! We shall be cooking and learning how to chop food safely using claw and bridge grips.

We continue to focus on fractions in maths; finding fractions of amounts.

In English we are going to write our own 'Michael Morpurgo' style stories using all the techniques we have been learning to gain the reader's interest.

**Star Learners**

Josh West for trying so hard with his reading.

Well done!

## Information for Families

Have a lovely weekend

Mr Good and Mrs Meade
