

YEAR 4 WEEKLY LEARNING

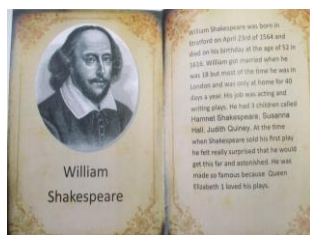

Ongar Place Primary School, Addlestone, Surrey O1932 842785

8th June 2018

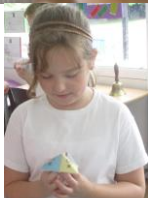

Our Learning Journey

We started to learn about William Shakespeare in English this week. We used laptops to create fact files that included the interesting information that we collected during our research.

We have also read one of his plays, A Midsummer Night's Dream, which we all thought was very funny.

We all need to know our times tables and the corresponding division facts as they are so important for our maths learning. This week we made fortune tellers to help us remember them.

Focus on Learning

Next week we shall continue our work on Shakespeare's A Midsummer Night's Dream in English.

Our focus in maths is statistics, collecting data and representing it in various forms eg. tables, charts and graphs.

We hope to continue with our weaving project in DT, please keep sending in any wool you can spare.

Star Learners

Daniel and Lauren for their work on a Shakespeare fact sheet.
Well done!

Information for Families

Enjoy the weekend.
