

YEAR 4 WEEKLY LEARNING

Ongar Place Primary School, Addlestone, Surrey 01932 842785

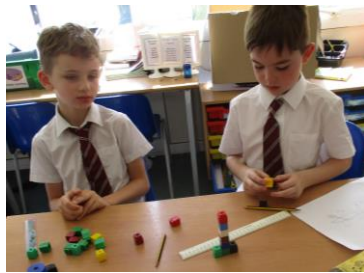

11th May 2018

Our Learning Journey

We have been investigating symmetry in maths. We have used mirrors to check that we have drawn the correct line of symmetry.

We have used cubes to make 3D symmetrical shapes.

Some of us used string to make shapes with different lines of symmetry and then explain why these lines were correct.

Focus on Learning

We are going to be creating some weaving in DT and would be grateful if you could send in to school any spare wool that you may have, that we could use.

In maths we shall continue to focus on geometry as we begin to learn about position and direction.

Star Learners

Dillen, for trying hard and persevering in maths this week.
Well done!

Information for Families

Enjoy the weekend.
