

# YEAR 4 WEEKLY LEARNING

Ongar Place Primary School, Addlestone, Surrey 01932 842785

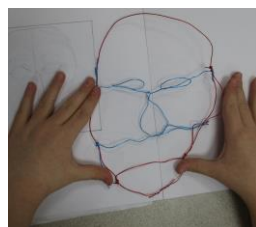

18<sup>th</sup> January 2019

## Our Learning Journey

Our focus in maths this week has been on division. We found using blocks that we could physically divide made it very clear what actually happens when you divide a number. We have worked with a partner to work out problems and then explain our answers. We think that knowing our times tables is very important and also makes dividing much easier.

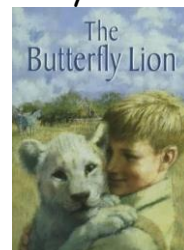

We have been working on drawing faces in art. We have used thin wire to make an outline that has helped us to concentrate on the correct proportions.

## Focus on Learning

Next week the focus in Times Tables Rockstars will be on the 4 times table.

Next week in English we will begin to look at our new class novel, *The Butterfly Lion* by Michael Morpurgo.

## Star Learners

Nic,  
for his work on division in  
maths  
Well done.

## Information for Families

Enjoy the weekend.
