

# YEAR 4 WEEKLY LEARNING

Ongar Place Primary School, Addlestone, Surrey O1932 842785

19<sup>th</sup> January 2018

## Our Learning Journey

In maths this week we have been using our times tables knowledge as we focussed on division. We used counters to help us see exactly what dividing looked like. We learnt about remainders, tried to give reasons for why patterns occurred and solved word problems with division and multiplication.

Some children from the choir went to watch and join in with 'glive' an introduction to classical music and an orchestra.

We wrote poems about dragons using figurative speech, we could easily visualise our dragons with descriptions like this -

'The fire he breathes brings an unnatural wave of warmth over everything near'

## Focus on Learning

Next week we start reading our novel 'The Butterfly Lion' by Michael Morpurgo.

In maths we shall be measuring, converting units of length and exploring the perimeter of rectilinear shapes.

Look out for photographs and news about our science days on next week's learning letter.

**Star Learners**

Poppy, for her use of figurative language in a poem.

Well done!

## Information for Families

Thank you for encouraging your children to read regularly.

Have a lovely weekend  
Mr Good and Mrs Meade
