

YEAR 4 WEEKLY LEARNING

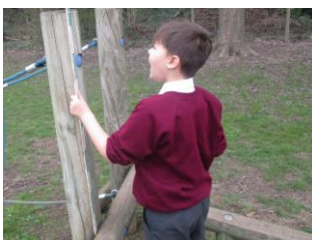

Ongar Place Primary School, Addlestone, Surrey 01932 842785

29th March 2019

Our Learning Journey

We have been using our powers of persuasion in our writing this week. In our new class book there are wolves in the walls, we wrote persuasively, giving good reasons and evidence why this is true.

In maths we have used our knowledge of decimals, multiplying and dividing to convert units of measure. Some of us also found that estimating length was quite tricky.

For your information

Next week during Times tables Rockstars we will test ourselves on all our tables again to see how we have improved.

We shall be focussing on perimeter in maths. Calculating the perimeter of rectilinear shapes and solving problems involving perimeter.

Star Learners

Krisha, for a good piece of persuasive writing.
Well done.

Information for Families

Enjoy the weekend.
