

# YEAR 4 WEEKLY LEARNING

Ongar Place Primary School, Addlestone, Surrey O1932 842785

6th January 2017

## Our Learning Journey

Happy New Year! We hope that everyone had a fantastic break. We have been delighted with how Maple class have settled back into learning so quickly.

We have been thinking about our new value, Appreciation, this week. We have written Appreciation poems to share how much we appreciate those people that are special to us. The children came up with some fantastic ideas and reasons why we should all be appreciated!

In Maths we have been tackling fractions and made fraction walls in our groups on Friday. It was good fun and very useful to help us to compare fractions.

Fantastic group work in Maths this week!

## Focus on Learning

We will continue working on fractions in Maths and will begin to understand how to reduce fractions to their simplest form.

In English, we will learning to compare and identify texts. We will identify similarities and differences when reading alternative versions of the same story.

In Theme, we will be learning about the Vikings as settlers.

## Star Learners

Alfie for his positive attitude to all learning this week, particularly in Maths. Well done!

## Information for Families

Homework - homework has been handed out today, which is to produce an entry for the School Council Drawing Competition, entries due back in school on Friday 13<sup>th</sup> January.
