This Week....

Another amazing week of fun and learning. We have played netball, experienced aqua aerobics, learned clapping rhymes, danced, played American football and played different indoor games. Wow! Everybody 'had a go' and enjoyed themselves.

In between these times -

In English we have focused on adding detail to descriptions by selecting adjectives and adverbs to put into our writing. We watched a video of motor-bike stunts and then tried to describe it while keeping the excitement.

In Maths we have been handling very large numbers. We looked at the capacity of the world's biggest stadium. We ordered them and rounded the figures to the nearest 10,100 and 1000. We then drew bar charts to represent this information. Finally, we practised formal methods of adding and subtracting by finding totals and differences between the different stadiums.

In Science we have investigated reaction times. We wanted to see if 'older' people were slower. We tested all the children and adults in the school, did some complicated maths (averages) and found out that.....

Ambassadors of the Week

Olivia — really focusing and enjoying both music and dance

Abi— for really trying to understand rounding.

Information for Families

Next week is week two of our Activity Fortnight. Children can come to school in PE kit.

Inter-House sports is on Friday. Children can wear a t-shirt in their team colours.

Thank you for signing planners and marking spellings.

Please return Sayers Croft forms a.s.a.p.
