

YEAR 5 LEARNING NEWS

Ongar Place
Primary School

Spring 8th February 2019

Some pictures

This Week...

In Maths we have been learning how to divide large 4-digit numbers by a 1 digit number. We have been focusing on the short method. This has involved, as always, using our times tables. We have explored problems with remainders and presenting those remainders as fractions.

English has been largely about writing our faraway stories. We have revisited relative clauses to help remind us to add extra information into our stories to help the reader understand and enjoy the story. We have also begun to practise for our class assembly. All of us know our parts and now we need to learn our lines and act our parts.

In Computing we were addressing a design brief. The brief was to compose and create a musical audio loop for a games app. We had to think about the style of the music to match the style of the game.

We played tennis this week. We have focused on positioning ourselves to play shots by moving our feet. This has meant watching the ball and making predictions about the flight and bounce. We are improving.

At Jubilee we have danced. Come to our assembly to see the performance.

Ambassadors of the Week

Harry — for speaking clearly in French

Thomas — learning a new word 'quotient' and telling the rest of the class.

Information for Families

Our class assembly date is
Valentine's Day—Feb 14th
9:00
