Spring 10th March

This Week...

In English this week because of the weather we have focused on two different aspects. We have been finishing our 60 second modern Macbeth and we have been learning how to organise and write a report about lifecycles of different animals. We have found it a challenge to become filmmakers and think about how the camera can be used to tell the story in imaginative ways.

In Maths we have been exploring decimals. We have been thinking about the place value of decimals, comparing them and adding and subtracting them.

In French we have been trying to get to grips with the feminine and masculine. It is tricky.

And finally... not be out done by Yr3 and 4 we have been working hard in Rugby to develop our use of space, communication and teamwork.

Ambassadors of the Week

Ellis — for listening very closely to work out masculine and feminine in French.

Molly—for showing a confidence when ordering decimals..

Information for Families

March 15th Inter-House Competition.
