Autumn 11th November

Some recent pic- tures...

This Week...

In English we have focused on the writing of dialogue. We have written first drafts of our 'acted' conversation and then edited them. We have tried to increase the accuracy of the punctuation, use different patterns of writing speech and develop the story line by including extra details.

During Maths we have consolidated our skills with the column subtraction method. We have explored how to approach word problems while developing mental strategies to help efficient calculation.

As scientists, with Mrs Brown, we investigated burning. We discovered that burning is an irreversible change as a new substance is produced in the process. We also reminded ourselves of reversible changes while we observed the candle wax change state.

In Computing this week we returned to the important topic of e-safety. We reviewed our knowledge of how to stay safe when using social media and explored the importance of strong passwords.

Ambassadors of the Week

Becky — for trying really hard to perfect her writing and punctuation of direct speech.

Jenson — for accurately using the column subtraction method.

Information for Families

Christmas Fair!

Thank you for the warmer P.E kits.

Return Christmas cards a.s.a.p

Please keep marking their spellings over the weekend
