

# YEAR 5 LEARNING

## Ongar Place Primary School

Milton Road

Addlestone, Surrey

01932 842785 14/7/17

### This Week...

We have been busy rehearsing the production at Jubilee this week. Everything looks fantastic with the costumes, props and talent.

In History we finished our Magna Carta document and will be sealing it next week.

In Maths we have calculated perimeters and areas of compound shapes.

In Science we have explored forces. We built and experimented with levers, elastic energy and strong, stable structures. We built structures with cocktail sticks and sweets and then built a simple catapult using a plastic spoon. We then faced the Trebuchet Challenge! Linked to our medieval history topic we were challenged to build a trebuchet that was innovative, accurate and strong. We worked in pairs, designing, building, and testing to get the right balance of science, design and technology. It was difficult. We'll find out the winners next week.

### Ambassadors of the Week

Everyone of Elm have been magnificent this year.  
They are all ambassadors!

### Information for Families

Summer Holidays start -Thurs 1:30pm  
Thank you for all your support this year.
