

# YEAR 5 LEARNING NEWS

Ongar Place  
Primary School

Autumn 14th September 2018

## Some pictures

## This Week...

In English this week we have continued to learn about pronouns and reports. We have read reports and discussed the features. We have started to write a report, using the computer, in the form of a leaflet, about the South Downs National Park.

Maths has continued to be about place value with large numbers. We have been trying to solve problems and show reasoning when ordering and comparing numbers.

We have had quite an active week. We have started to learn the skills needed to play dodgeball, netball and hockey. We have also started to train to become a Jedi knight.

Maintaining our learning, in science, about materials we investigated what happens to some materials when they are mixed. We investigated the property of solubility and started to think about reversible and irreversible changes to materials.

In Art we have been exploring the use of line and tone. By just using lines and different media we have been creating simple patterns.

## Ambassadors of the Week

**Josh W**—for making good progress in learning about place value in maths.

**Oliver** - for making valuable contributions to class discussions.

## Information for Families

Look out for a letter about a trip to a mosque on 15th October.
