

YEAR 5 LEARNING NEWS

Ongar Place
Primary School

Autumn 14th December 2018

Some recent pictures

This week, in English we have been focusing on proof-reading and editing our environmental fairy tales. We used our improved typing skills to create a printed hard copy. Some of us also designed and created a book cover for our story.

Maths learning has been all about solving problems and reasoning about perimeter and area. One of the challenges was to calculate the measurements of compound shapes when some dimensions are missing. It has been important to know the difference between the two measurements.

Outside, during PE we enjoyed playing small competitive games. We played 'Knock down' - a netball type game encouraging movement, use of space, throwing and catching. On Wednesday, we played hockey. Could we transfer the same skills?

We have been practising singing in preparation for the Carol concert. We sounded fantastic!

Finally, we finished our Earth & Space topic in Science by learning about the moon and eclipses.

THE PANTO WAS AMAZING. Oh, yes it was!

Ambassadors of the Week

Theo— showing great stick control in hockey.
Beth—excellent sketching of bones.

Information for Families
MERRY CHRISTMAS AND
HAPPY NEW YEAR

19th Dec—Term ends 1:30pm
