

YEAR 5 LEARNING NEWS

Ongar Place
Primary School

Spring 15th February 2019

Some pictures

This Week...

In Maths we have started to tackle of the challenge of fractions. We have revised about calculating fractions of amounts, learned about improper fractions and mixed numbers.

English has been about reviewing some of our knowledge to help us be more accurate in our writing. We revisited the use of conjunctions and the punctuation of direct speech. Finally, we finished our faraway stories and published them.

Using Garageband we have composed an audio loop to accompany a game app. We had to select the style of the music to match the style of the game. We uploaded our compositions into another app and then used that app to explain how we have completed the design brief.

As part of our topic on mountains we discussed climate in mountain areas. We considered the factors that affect climate and then compared our climate in Addlestone to a mountain climate in Wales.

Ambassadors of the Week

Everyone.

Everyone learned their parts, rehearsed, showed enthusiasm and performed brilliantly.

Well done!

Information for Families

We hope you enjoyed our assembly.

Have a great holiday.
