Autumn 16th December

This Week...

In English this week we have written a recount of our adventures at Sayes Croft. We added a sighting of a UFO to make it even more exciting. We were focusing on using expanded noun phrases, adverbial phrases, direct and indirect speech as well as different conjunctions to create a variety of sentence constructions.

During Maths we have explored using factor trees to identify prime numbers. We have also had assessments in calculations and problem solving.

On the computers we have started to write a short game that shows the Earth orbiting the Sun and the moon orbiting the Earth. Some of us have added spaceships and aliens too.

In Science we brought our topic to a close by learning the reasons why we have seasons, the phases of the moon and we calculated how old we were if we lived on different planets.

Oh...and not forgetting our fabulous Carol Concert and the amazing pantomime.

Ambassadors of the Week

Amy — for raising a very interesting scientific question. (Why does the Earth turn?)

All those who sang special parts in the
Carol Concert

Information for Families

There will be no home-work next week.

Happy Christmas to everyone.
