Spring 19th January

Some recent pictures

This Week...

In English we have shared different stories with a common theme. We reviewed a story trying to give reasons for our opinions. We have also reviewed our use of apostrophes. On Monday we held a debate. The two groups debated about whether Sayers Croft was 'educationally worthwhile'. Each group tried to persuade the other. The vote showed we thought it was worthwhile.

In Maths we have run an investigation involving division. We have been looking for patterns and trying to explain them. We have also played a new 'Vocab' game.

In PE half of us worked with Mr Edgley—playing rugby, and the other half played netball with Mrs Searle our new netball coach.

The highlight this week has been Science. We started our new topic by looking at parts of flowers and learning about the life cycle of flowering plants. In our workshop we raced elastic-powered cars. It was great fun, using the K-nex, working with friends and being an engineer for the afternoon. On Friday we went on a carousel of activities around KS2. In Yr3 we built and tested paper bridges. In Yr4 we designed nappies. In Yr5 we compared bouncing balls and in Yr6 we investigated static electricity.

Ambassadors of the Week

Olivia— was amazing at Netball. Moving into to space and giving her team mates options.

Thomas—has valuably contributed to discussions in science and maths.

Information for Families

31st January— Class Assembly
