This Week....

This week has returned to something like 'normal'.

On Monday, in English, we read different versions of Robin Hood and compared them. We compared characters, settings and storyline. We then discussed why there are differences between the stories. In Maths we returned to the properties of 2D shapes. In the afternoon we explored the importance of meditation in Buddhism.

On Tuesday, in the morning, we rehearsed for our production and later we had French and Music.

On a hot Wednesday we learned about synonyms and antonyms and used a thesaurus to develop and improve a text. In maths we had a shape problem to solve which involved the properties of 2D shapes. In the afternoon (with the disappointment of Sports Day) we rehearsed....some more.

On a cooler Thursday, we further investigated synonyms and the using the thesaurus and started to learn about 3D shapes. In the afternoon we started to create Powerpoints about the e-safety we have learned this year. Finally, we practised some games for Sports Day next week.

On Friday we investigated forces in Science and tried to finish our charcoal gargoyles. In Maths we further investigated the properties of 3D shapes and finally.....we rehearsed.

Ambassadors of the Week

Molly - for having great fun in PE

Issie - for making useful comments about e-safety

Information for Families

Tuesday (a.m)— Sports Day
