Autumn 23rd September

This Week....

WOW! What an amazing week. We have done so much.

We started the week in a refreshing healthy way by extending our skills in **hockey and playing some small sided games**. In the afternoon we learned about the work of the **PDSA in caring for animals** and helping pet owners.

On Tuesday we started to learn about **refugees**. We considered this together with our **Ongar value—peace**. We thought about the **well-being** of these people and our own **prosperity**. In an activity we thought about the few items we would take with us, if we had to leave our homes, that would help our **well-being**. Tesco also came to talk to us about **sugar in our diet** and shared some alternative snack foods. Half of us went to learn about the role of a councillor and how they can help to **support people** in lots of different ways while the rest of us completed a tree challenge (to find the oldest tree) in our **lovely environment**. We ended the day with a session with Pete the Poet who in song, dance and stories showed us the importance of **friendship**. Oh, and we **cooked a healthy couscous salad**. Yum!

On Wednesday we learned about **children living in Ghana**. We **sang 'Happy'** with Mrs Reed, **met Rosie and Charlie—two guide dogs for the blind**—and learned about the important job of the **RNLI and water safety**.

On Thursday we spent the morning in the Life Bus. We **played games** and activities and watched films about the importance of **friends and friendship**. In the afternoon we had a great session learning about **First Aid**. Do you know the recovery position and your **ABC**?

Finally, today we have jump started our bodies with some exercise, measured legs and compared jumps with Yr 2, spent some time in a **reflection room** and thought about our **well-being**.

WOW! What a week to remember!
